There's a new
community
coming to
South Mississippi.

Make it yours.

It's about the past

Heritage is an identity, a birthright, and is characterized by traits of past generations. It refers to something which is inherited from one's ancestors. The South has a heritage steeped in tradition. The tradition of family, comfort and hospitality. These traditions are the basic foundations of HERITAGE, a new development by Dennis Pierce, Inc.

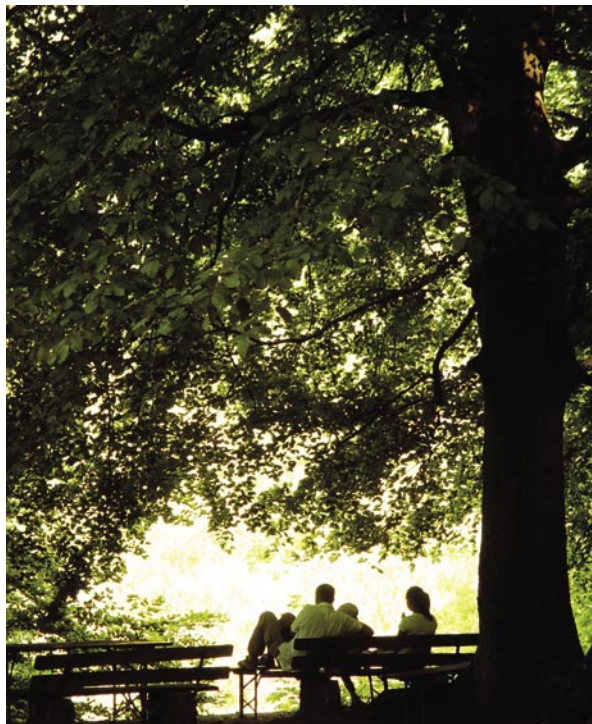

Your family will cherish being a part of HERITAGE for generations to come. Know that when you've chosen a Dennis Pierce, Inc. community for your family, you've chosen the very best.

and the future's foundation

More than just another residential development, HERITAGE is a premier community of South Mississippi. Developed with outdoor aesthetics in mind, you will find a place of retreat and an opportunity to relax.

Southern traditions are the guidelines for every aspect of developing HERITAGE. Located 2 miles South of Highway 98 at the Purvis-Oloh road, your journey to HERITAGE will include scenic by-ways and the nearby Oak Grove, Purvis, and Sumrall. The foundation for this community is based on these local down home atmospheres. The kind of place where you know your neighbor; your kids can run free and a fence isn't erected to keep trespassers out, but rather to keep the horses in.

Fresh hay and room to romp

2000+ acres and plenty of peaceful homes. Those are the numbers but the numbers don't give the full picture. HERITAGE will have larger than normal acreage for its equestrian-themed area. There will be stables for anything from a thoroughbred to a sweet donkey. A common stable and riding area with miles of walking trails make HERITAGE the ideal out-of-doors family destination.

The equestrian life is just the beginning of HERITAGE'S attractions. Each home tract will also offer spectacular vistas and exceptional lake access.

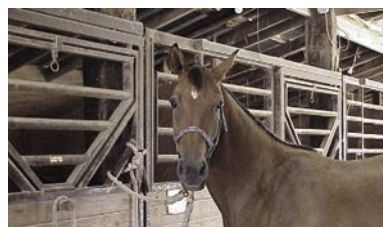

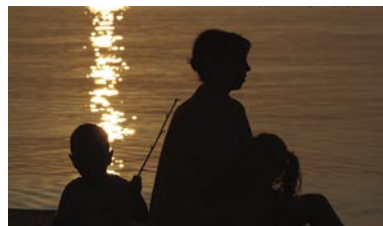

It is not length of life, but depth of life.

If equestrian indulgence isn't in your family's future, consider the variety of thrills available on HERITAGE lake.

With a main lake encompassing 162 acres, boating action such as skiing and tubing will be commonplace.

For the quieter water activities, canoeist and fisherman alike will enjoy exploring the endless quiet lake inlets.

The lake is fed by freshwater streams and stocked with bass, crappie, and bream. It's the perfect proving ground for your young fisherman-to-be.

Traditions begin

The dedication and passion of the developers of HERITAGE assure your choice will positively influence the coming generations. Establish your family tradition now by learning more about the equestrian and lake life at HERITAGE today.
